## **The Dental Training Programme – the pledge to support areas of deprivation**

As a Gold Unity Partner of Bridge2Aid, the Association of Dental Groups (ADG) is pleased to support the Kigurusimba Health Centre in the Pangani district, as part of the Dental Training Programme.

Over the course of a six-day assessment, five Clinical Officers and the Bridge2Aid training team were able to treat a staggering 475 patients including Ndahane Mathias, a 37-year-old mother and farmer from Mkalamo village.

Thanks to the provision of this treatment, Ndahane was able to have a tooth removed that had been plaguing her for a brutal three months.

By continuing to support the work of Bridge2Aid, deprived areas can be supplied with much needed equipment and training. Thanks to you, the Kigurusimba Health Centre and the five newly trained clinical officers – responsible for approximately 10,000 people – can deliver effective dental care that the local community needs.

To find out how to donate, volunteer and support, contact ADG now: all together we can make a difference.
